DETAILED ACTION

Allowable Subject Matter

Reasons of Allowance:

3. Claims 1-18 are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest prior art Jones et al., U.S. Patent No. 6,748,101, are directed to paper sheet discriminator. However, the prior art of record does not teach the limitation "wherein said judging means judge whether or not the appearance positions extracted by said appearance positions extracting means with the appearance positions on said paper-like sheet at which the amplitude of the signal waveform with less than said specified wavelength has the amplitude not less than the constant value appear so as to discriminate genuineness/spuriousness of said paper-like sheet" as recited in claim 1, "wherein said judging means judge whether or not the appearance positions extracted by said appearance positions extracting means is same with the appearance positions on said paper-like sheet, corresponding to said longitudinal positional course for passage of said paper-like sheet and at which said amplitude of the signal waveform with less

than said specified wavelength has the amplitude not less than the constant value appear so as to discriminate genuineness/spuriousness of said paper-like sheet” as recited in claim 2, “wherein said judging means (or collating means) judge the integral value in correspondence with said passing position is not less than the constant value, so as to determine crumples in said paper-like sheet” as recited in claims 15 and 16. Therefore claims 1, 2, 15 and 16 are allowed. All other claims depending on claims 1, 2, 15 and 16 are allowable at least by dependency on claims 1, 12, 15 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
